SUMMARY

Motivated and detail-oriented MCA student with a strong foundation in Python, web development, and database management. Experienced as a Web Developer, managing and enhancing websites, developing web components, and handling large-scale student data operations. Skilled in Flask, MySQL, and modern web technologies, with hands-on experience in designing digital creatives and supporting end-to-end event execution. Passionate about building efficient, scalable solutions and continuously learning new technologies.

WORK EXPERIENCE

Technical Operation Coordinator

May, 2025 – Present

Shiksha Sopan IIT Kanpur (NGO), founded by H. C. Verma (Padma Shri Awardee)

- Manage and maintain the organization's website, ensuring regular updates and performance improvements
- Develop and enhance web components based on evolving organizational needs
- Design engaging promotional creatives for NAEST campaigns to boost outreach
- Oversee and clean student registration data, maintaining high accuracy and reliability
- Coordinate participant data and streamline operations for efficient NAEST execution

Certifications

- Crash Course in Python (Coursera)
- Introduction to Computer Technologies and Learning Methods (CSJM University)
- Git, GitHub & Markdown Crash Course (Udemy)
- Learn to Code in Python 3: Beginner to Advanced (Udemy)
- Canva Master for Social Media and Content Creation (Udemy)
- Online Vocational Training Program in Python (Sponsored by UPRVUNL in collaboration with IIT Kanpur).

EDUCATION

Master of Computer Application

Chhatrapati Shahu Ji Maharaj University

- Graduated: June, 2025

Bachelor of Computer Application

Chhatrapati Shahu Ji Maharaj University

- Graduated: June, 2023

SKILLS

Technical Expertise

- Languages: Python, C
- Frameworks & Web: Flask, HTML, CSS
- Databases: MySQL, MongoDB
- Tools: Git, GitHub, TeamCenter PLM, Figma, Canva, MS Office

Professional Skills

- Web Application Development & Maintenance
- Data Management & Database Handling
- UI/UX Design & Digital Content Creation
- Application Installation & Configuration
- Network Setup & Troubleshooting
- Technical Issue Diagnosis & Resolution

PROJECTS

- **Gender and Age Detection system** - Built a flask-web application using OpenCv and pre-trained deep learning models for face analysis. Implemented features for live camera capture, static image upload, and real-time prediction of age and gender.
- **AI Image Generator** : Flask-based AI image generator using Stability AI with secure API key handling.
- **CRUD WebApp** : Flask CRUD Web Application is my backend web project built using Flask and SQLAlchemy. The application performs full CRUD operations (Create, Read, Update, Delete) with data stored in a SQLAlchemy database. This project helped me understand Flask routing, Jinja templating, and ORM-based database interactions.
- **FlaskCraft** : It is an industry-standard Flask web application built using the App Factory pattern, Blueprints, and SQLAlchemy ORM. The project follows clean architecture principles with proper separation of routes, services, and models, and includes full CRUD functionality with template rendering and static assets.
- **KanhaProperty** : Developed and deployed Kanha Property, a responsive real estate website showcasing property listings and investment opportunities. Designed structured pages with clear call-to-action features for lead generation. Managed complete deployment using a GoDaddy custom domain and Netlify hosting, handling DNS configuration and domain mapping, strengthening real-world hosting and deployment expertise.

🔗 Live: <https://kanhaproperty.xyz/>

- **Prisha Infotec** – Designed, developed, and deployed a professional business website for a client to enhance digital presence and customer engagement. Implemented a responsive and user-friendly interface with optimized performance. Managed end-to-end development lifecycle including requirement analysis, development, testing, and deployment on a live server.

EXTRACURRICULAR ACTIVITIES

Programming Contest – Contest Head

- Successfully organized CodeCluster Programming Contest 2K23 at UIET, CSJM University, Kanpur.
- Led event planning, coordination, and execution, ensuring smooth conduct of the competition.
- Managed participant engagement and collaborated with team members to deliver a structured and efficient contest experience.

ICPC Volunteer

- Volunteered three times for ICPC (International Collegiate Programming Contest), supporting event coordination and team management.
 - Facilitated communication between participants and organizers, ensuring smooth contest operations.
 - Assisted in resource management and contributed to improving overall participant experience and efficiency.
-

INTERPERSONAL SKILLS

- Strong relationship-building and trust-establishing skills.
- Confident, determined, and adaptable
- Quick learner with the ability to handle diverse situations effectively.
- Strong interpersonal skills.
- Proactive and self-motivated.
- TechGeek-Eager to learn more technologies.
